# Your peace of mind

When the time comes to say goodbye to your faithful companion, our compassionate and caring team will be there to support you.

Our IAOPCC-accredited cremation and memorial team will ensure your beloved pet is treated as if they were their own, with the utmost dignity, care and respect.

For your peace of mind, our quality control systems track your pet's journey each step of the way to ensure their ashes safely make their way either home to you or back to the earth.

100% of the profits from our pet cremation service assists with saving the lives of vulnerable animals. Choosing AWL to farewell your pet provides food, shelter, love and support to the thousands of animals in need that come through our doors each year, ensuring they get to experience the same love you gave your pet.

## Your memorial options

Losing a family member can be overwhelming, so we are here to support you in saying goodbye and remembering your beloved pet.

1. Choose if you would like to honour your pet with an individual cremation in which their ashes are returned home or a communal cremation in which their ashes are returned to the earth.
2. Choose from a personalised memorial package, carefully selected by our caring team to make this difficult time a little less complicated for your family.
3. Consider personal ways to remember your pet with keepsakes, memorials or AWL resting places.

“The staff at AWL are wonderful. Losing my dog was one of the hardest things I’ve ever experienced, but the staff were so understanding and lovely throughout the whole process.”

- Janet R
